Period for Reply

A SHORTENED STATUTORY PERIOD FOR REPLY IS SET TO EXPIRE 3 MONTH(S) OR THIRTY (30) DAYS, WHICHEVER IS LONGER, FROM THE MAILING DATE OF THIS COMMUNICATION.

- Extensions of time may be available under the provisions of 37 CFR 1.136(a). In no event, however, may a reply be timely filed after SIX (6) MONTHS from the mailing date of this communication.
- If NO period for reply is specified above, the maximum statutory period will apply and will expire SIX (6) MONTHS from the mailing date of this communication.
- Failure to reply within the set or extended period for reply will, by statute, cause the application to become ABANDONED (35 U.S.C. § 133). Any reply received by the Office later than three months after the mailing date of this communication, even if timely filed, may reduce any earned patent term adjustment. See 37 CFR 1.704(b).

DETAILED ACTION

Claim Rejections - 35 USC § 103

The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

Claims 21 and 23-27 are rejected under 35 U.S.C. 103(a) as being unpatentable over Bersten in view of Portman.

There is disclosed in Bersten a beverage brewing device, comprising: a container 1 including a side wall 3, an open end and a closed end 4; a stirring member 20 movable within the container, the stirring member having a shaft 22; a knob 23 attachable to the shaft opposite the stirring member; a perforated plunger 2 movable within the container, the plunger comprising a perforated bottom plate 5, a screen plate 6, and a perforated upper plate 7 attached to a hollowed shaft 16; a handle 19 attachable to the hollow shaft; wherein the hollow shaft is adapted to receive the shaft of the stirring member; and a lid 8 positioned on the open end of the container and having an aperture.

Portman discloses a brewing device, comprising: a container 20; a plunger and stirring member 40, 50; a plunger handle 54 to receive a hollow shaft 52 of plunger 50 and a detent (lower extending portion of the handle); a shaft 34 of a stirring member 40; and a lid 60 having a cavity 62 sized to receive the handle, and a channel sized to receive the detent; wherein the handle 54 defines a bore therethrough adapted to

Art Unit: 1761

receive the shaft of the stirring member, and further wherein the hollow shaft of the plunger is adapted to receive the shaft of the stirring member, thereby allowing the stirring member and the shaft to rotate freely and independently from the plunger and the hollow shaft.

It would have been obvious to one skilled in the art to substitute the handle and lid arrangement of Bersten with that disclosed in Portman, in order to allow independent movement of the elements and a secure fitting with the lid.

Allowable Subject Matter

Claim 22 is objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.

Claims 28-37 are allowed.

Response to Arguments

Applicant's arguments with respect to claims 21-27 have been considered but are moot in view of the new ground(s) of rejection.

Conclusion

Applicant's amendment necessitated the new ground(s) of rejection presented in this Office action. Accordingly, **THIS ACTION IS MADE FINAL**. See MPEP § 706.07(a). Applicant is reminded of the extension of time policy as set forth in 37 CFR 1.136(a).

A shortened statutory period for reply to this final action is set to expire THREE MONTHS from the mailing date of this action. In the event a first reply is filed within

Art Unit: 1761

TWO MONTHS of the mailing date of this final action and the advisory action is not mailed until after the end of the THREE-MONTH shortened statutory period, then the shortened statutory period will expire on the date the advisory action is mailed, and any extension fee pursuant to 37 CFR 1.136(a) will be calculated from the mailing date of the advisory action. In no event, however, will the statutory period for reply expire later than SIX MONTHS from the date of this final action.
